Montreal, March 25, 2026 – **Maison 4:3, Happy Camper Media** and **Radio-Canada** are pleased to announce that production has begun on the animated feature film **L'AGENT JEAN! : LA FIN DES MONDES.** Created by **Alex A.,** *Agent Jean!* celebrates 15th anniversary this year. Its unique universe is now heading to the big screen in a feature film written by Alex A. and Robin Balzano, directed by Félix Larivière, and co-produced by Renaud Sylvain and Félix Larivière for Happy Camper Media. **Pier-Luc Funk** will once again lend his voice to the character of Jean in this highly anticipated animated film, set for release in fall 2027. The film will subsequently be available on ICI TOU.TV EXTRA.

Since the first *Agent Jean!* volume was published by Presses Aventure in 2011, Alex A. has captured the hearts of fans, both young and old. Fifteen years later, he has built an impressive body of work, skillfully weaving together a vast universe of interconnected stories that continue to captivate readers and inspire a love of reading. The comic book series alone has sold more than 1.7 million copies.

In 2018, *Agent Jean!* made its television debut on Radio-Canada and went on to win four Gémeaux Awards for "Best Animated Series" in 2019, 2020, 2021 and 2022. Since fall 2025, *Agent Jean!* has also had its own dedicated digital streaming channel, available on ICI TOU.TV. Broadcast nationally and internationally (Radio-Canada, CBC, Canal+ Afrique), the *Agent Jean!* multiplatform animated series also extends into podcasts, audiobooks and interactive web-based games.

“The moment I realized that making an *Agent Jean!* film was truly possible, the story came to me on its own. And thankfully so, as this is the way I like to create! Years of exploring the character and his universe in the TV series laid the groundwork for creating something that truly matches our ambitions. This is an opportunity for fans to experience an *Agent Jean!* adventure together. Reading a book is a solitary experience, but going to the movies is a shared one. We experience a story together—with friends, with family—and it has the power to create unforgettable memories.”

— Alex A., creator of *Agent Jean!* and co-writer of *AGENT JEAN!: LA FIN DES MONDES*

“Today’s announcement is especially meaningful for us. Félix and I have been working with Alex A. and Presses Aventure on *Agent Jean!* for 10 years now, imagining and growing this universe, always with the slightly crazy dream of one day seeing it on the big screen. Well, mission accomplished, as our favorite agent would say! As producers, this is a major milestone and a true moment of celebration - an opportunity to spread our wings in a new format, as this is our very first feature film at Happy Camper Media. This project would never have come to life without the invaluable support of our partners, Radio-Canada and Presses Aventure, whom we sincerely thank.”

— Renaud Sylvain, President and Executive Producer, Happy Camper Media

“This project marks an exciting new chapter in the strong partnership between Radio-Canada’s Youth division and the world of *Agent Jean!*. After winning over audiences on our screens and across our digital platforms, it felt only natural for this beloved franchise to make the leap to the big screen. We can’t wait for young audiences to embark on this spectacular, larger-than-life mission!”

— Christiane Asselin, Senior Director, ICI TOU.TV, Web TV, Youth and Sports, Radio-Canada

Produced by Happy Camper Media and distributed by Maison 4:3, ***AGENT JEAN!: LA FIN DES MONDES*** was made possible with financial support from Radio-Canada, which has been involved since the early stages of script development, as well as SODEC, the Quebecor Fund and the Canada Media Fund.

Please note that Alex A. will make an appearance at several upcoming book fairs:

Salon du livre de Trois-Rivières – March 26 to 29
Salon international du livre de Québec – April 8 to 12
